Description

Description:

Log in with a valid username and valid password.

Preconditions:

- Ensure your user is registered with a valid account.
- Confirm that the user is not currently logged in.

Test Steps:

1. Navigate to the **Login** page on the <https://demo.spreecommerce.org/login>.
2. Enter a valid username in the email field (e.g., <<valid_username>>).
3. Enter a valid password in the Password field (e.g., <<valid_password>>).
4. Click the **Login** button.

Expected Result:

- Successful login.
- Redirected to the Account page.
- Confirmation message: "**Logged in successfully.**"

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit)
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448)

Description**Description:**

Check whether the entered password remains invisible for security reasons.

Preconditions:

- Ensure you are not currently logged in.

Test Steps:

1. Navigate to the Login page on the <https://demo.spreecommerce.org/login>.
2. Locate the Password field on the login form.
3. Fill Email field - <<valid email>> ;
4. Fill Password field - <<valid password>>;

Expected Result:

- Ensure that the characters entered in the Password field are not visible (e.g., displayed as asterisks or dots).
- Verify that the password remains concealed to prevent unauthorized access.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit)

Description

Description:

I want to test the "Forgot Password" feature to ensure users can successfully recover their password.

Preconditions:

- Ensure you are not currently logged in.

Test Steps:

1. Navigate to the Login page on the <https://demo.spreecommerce.org/login>.
2. Locate and click on the "**Forgot Password**" link.
3. On the "Forgot Password" page, enter a valid registered email address in the provided field.
4. Click the "**RESET MY PASSWORD**" button.

Expected Result:

- A confirmation message should be displayed indicating that a password reset email has been sent.
- Check the registered email inbox for the password reset email.
- Click on the provided link in the email to reset the password.

- The system should prompt you to set a new password.
- Set a new password and confirm.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit)

Description**Description:**

Successfully edit the details of an existing address.

Preconditions:

- Navigate to the [Spree Demo Site](#).
- An existing user is successfully registered and logged in.
- The user has at least one existing address.

Test Steps:

1. Navigate to the "Addresses" section.
2. Identify an existing address and click on the "Edit" option.
3. Modify the details (e.g., change the city or phone number).
4. Click the "Save" button.

Expected Result:

- The address details are successfully updated.
- The user is redirected to <https://demo.spreecommerce.org/account>.
- A green success message is displayed on the top of the page, indicating: "Address details updated successfully."

Description

Description:

Verify that the "Price (LOW - HIGH)" sorting option correctly arranges products with the lowest prices appearing first.

Preconditions:

- Navigate to the [Spree Demo Site](#).
- An existing user is logged in.

Test Steps:

1. Go to a product catalog or category.
2. Look for the "Sort by" dropdown or similar UI element.
3. Select the "Price (LOW - HIGH)" sorting option.

Expected Result:

- The products are arranged with the lowest-priced items appearing at the top.
- The sorting is applied consistently across the displayed products.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

Description

Description:

Verify the successful completion of the order process by adding a product from the women's category and navigating through each step of the checkout process.

Preconditions:

1. Navigate to the [Spree Demo Site](#).
2. An existing user is logged in.

Test Steps:

1. Navigate to the Women's product catalog.
2. Choose a single product.
3. Click on the "Add to Cart" button.
4. Click on the "Checkout" button.
5. Enter a valid first name in the "FIRST NAME" field.
6. Enter a valid last name in the "LAST NAME" field.
7. Enter a valid address in the "ADDRESS" field.
8. Optionally, leave "ADDRESS (COUNTD.)" empty.
9. Enter a valid city name in the "CITY" field.
10. Select a state from the drop-down menu.
11. Enter a valid zip code in the "ZIP CODE" field.

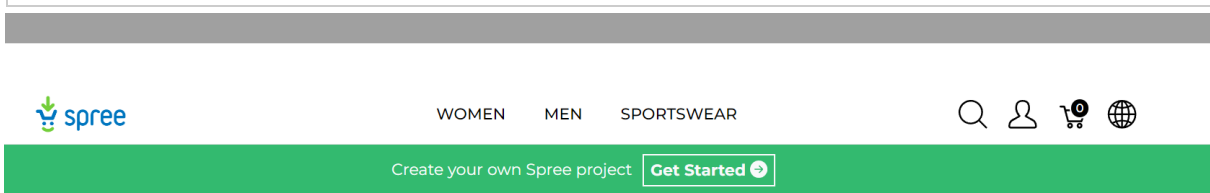

12. Select a country from the drop-down menu.
13. Enter a valid phone number in the “PHONE” field.
14. Click on the “Save and Continue” button.
15. Choose one of the delivery methods (e.g., UPS Ground (USD) \$5.00).
16. Choose PAYMENT TYPE as “Check”.
17. Click on the “Place Order” button.

Expected Results:

1. The user is redirected to an order confirmation page.
2. The message “Order placed successfully” is prominently displayed.
3. The total amount of the order matches the expected total.
4. Order details, including product quantity, size, and shipping address, are visible and accurate.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

Description**Description:**

Verify the functionality of adding an item to the shopping cart and subsequently deleting it.

Preconditions:

1. Navigate to the [Spree Demo Site](#).
2. An existing user is logged in.

Test Steps:

1. Browse the product catalog and select a specific item.
2. Click on the "Add to Cart" button.
3. Navigate to the shopping cart by clicking on the cart icon.
4. Verify that the selected item is correctly added to the cart.
5. Click on the "Remove" or "Delete" button next to the added item.
6. Confirm the deletion when prompted.

Expected Results:

1. The selected item is successfully added to the shopping cart.
2. The shopping cart reflects the correct quantity and details of the added item.
3. The user can successfully remove the item from the cart.
4. The shopping cart is updated, and the deleted item is no longer visible.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

[SDP-58] [Shopping Cart] Add Item, Change Quantity, and Verify Price Created: 15/Dec/23 Updated: 15/Dec/23

Status:	To Do
Project:	spree-demo-project
Components:	None
Affects versions:	None
Fix versions:	None

Description

Description:

Verify the functionality of adding an item to the shopping cart, changing the quantity, and ensuring the correct price is reflected.

Preconditions:

1. Navigate to the [Spree Demo Site](#).
2. An existing user is logged in.

Test Steps:

1. Browse the product catalog and select a specific item.
2. Click on the "Add to Cart" button.
3. Navigate to the shopping cart by clicking on the cart icon.
4. Verify that the selected item is correctly added to the cart.
5. Change the quantity of the added item (e.g., from 1 to 3).
6. Verify that the price is automatically updated based on the new quantity.
7. Ensure that the total amount reflects the correct calculation (quantity multiplied by the unit price).

Expected Results:

1. The selected item is successfully added to the shopping cart.
2. The shopping cart displays the correct quantity and details of the added item.

3. The user can change the quantity, and the price is updated accordingly.
4. The total amount accurately reflects the multiplied price based on the new quantity.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

[SDP-59] [Search] Verify search functionality as a guest Created: 15/Dec/23 Updated: 18/Dec/23

Status:	To Do
Project:	spree-demo-project
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Test	Priority:	High
Reporter:	Yordan Nikolov	Assignee:	Yordan Nikolov
Resolution:	Unresolved	Votes:	0
Labels:	Automation		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Sprint:	
----------------	--

Description

Description:

Verify that the search functionality returns relevant results for a guest user.

Test Steps:

1. Navigate to the <https://demo.spreecommerce.org/>.
2. Click on the search icon located near the account icon.
3. In the search bar, enter a valid search term (e.g., "Denim Shirt").
4. Press Enter or click on the search icon.
5. Check that the search results include relevant products.
6. Verify that irrelevant products are not displayed in the search results.

Expected Results:

- Relevant products matching the search term are displayed.
- Irrelevant products are not present in the search results.

Notes:

- Ensure that the search bar is responsive to the entered search term.
- Confirm that the displayed products match the search criteria accurately.
- If there are no relevant results, a clear indication should be given (e.g., "No results found").

- The test is conducted from the perspective of a guest user to assess general accessibility.

[SDP-60] [Search] Verify search functionality as an authenticated user Created: 17/Dec/23 Updated: 18/Dec/23

Status:	To Do
Project:	spree-demo-project
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Test	Priority:	High
Reporter:	Yordan Nikolov	Assignee:	Yordan Nikolov
Resolution:	Unresolved	Votes:	0
Labels:	Automation		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Sprint:	
----------------	--

Description

Description:

This test case verifies that the search functionality returns relevant results for an authenticated user. It also checks that the search results align with the user's preferences or history and that irrelevant products are not displayed.

Preconditions:

- The user is registered on the website and has a history of browsing or purchasing products.
- The user is logged into their account on <https://demo.spreecommerce.org/>.
- The website is functioning and accessible.

Test Steps:

1. Log in as a registered user on the <https://demo.spreecommerce.org/>.
2. Navigate to the homepage or any relevant section of the website.
3. Locate the search icon near the account icon and click on it to open the search bar.
4. Enter a valid search term in the search bar (e.g., "Denim Shirt").
5. Press Enter or click on the search icon to initiate the search.
6. Observe the search results for relevance and alignment with the user's preferences or history.
7. Verify that the search results include products relevant to the search term.
8. Check that irrelevant products are not displayed in the search results.

Expected Results:

- The search results page is displayed without any errors.
- Products relevant to the search term "Denim Shirt" are displayed in the search results.
- The products displayed align with the user's preferences or history.
- Irrelevant products are not present in the search results.

Postconditions:

- The user remains logged into their account.

Notes:

- If the search term does not match any product, a message indicating "No products found" should be displayed.
- If the user has no history or preferences, the search results should still be relevant to the search term.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

[SDP-61] [Search] Verify search functionality with invalid input Created:

Attachments:  2023-12-17 11_09_27-Window.png**Sprint:****Description****Description:**

This test case verifies that the search functionality handles invalid input gracefully and provides appropriate feedback to the user. It also checks that no irrelevant or unexpected products are displayed in the search results and that the page layout and functionality remain intact after the invalid search attempt.

Preconditions:

- The user is on the website <https://demo.spreecommerce.org/>.
- The website is functioning and accessible.

Test Steps:

1. Navigate to the homepage or any relevant section of the website <https://demo.spreecommerce.org/>.
2. Locate the search bar on the page.
3. In the search bar, enter an invalid search term (e.g., “###”).
4. Press Enter or click on the search icon to initiate the search.
5. Observe the behavior of the search functionality and the response or error message displayed.

Expected Results:

- The search bar should handle invalid input without causing errors.
- The website should provide a clear message indicating that the search term is invalid or that no results were found.
- The message is “**We couldn’t find products for '###'. Please try another search.**“
- No irrelevant or unexpected products should be displayed in the search results.
- The page layout and functionality remain intact after the invalid search attempt.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

Description

Description:

To ensure that the autocomplete functionality in the search bar provides relevant and dynamically updating suggestions as the user types.

Preconditions:

- The user has access to the internet.
- User is on the homepage of <https://demo.spreecommerce.org/>.

Test Steps:

1. Navigate to the <https://demo.spreecommerce.org/>.
2. Locate the search bar on the homepage.
3. Begin typing a partial search term (e.g., "Denim").
4. Observe the suggestions that appear in the autocomplete dropdown.
5. Continue typing and observe if the suggestions update dynamically.
6. Click on a suggestion or press Enter after selecting a suggestion.
7. Observe the search results.
8. Click away from the search bar or select a suggestion and observe the autocomplete dropdown.

Expected Results:

- Relevant product names or search terms related to the partial input should appear in the autocomplete dropdown.
- The suggestions should update dynamically as the user continues typing.
- Autocomplete suggestions should be visually clear and easy to distinguish.
- Clicking on a suggestion or pressing Enter after selecting a suggestion should perform a search for the selected term and display relevant results.
- The autocomplete dropdown disappears when the user clicks away or selects a suggestion.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit).
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448).

This test case verifies that the language switching functionality changes the website language to Deutsch (DE) successfully and consistently across different pages of the website.

Preconditions:

1. User has access to the internet.
2. User is on the homepage of <https://demo.spreecommerce.org/>.
3. The default language of the website is set to English.

Test Steps:

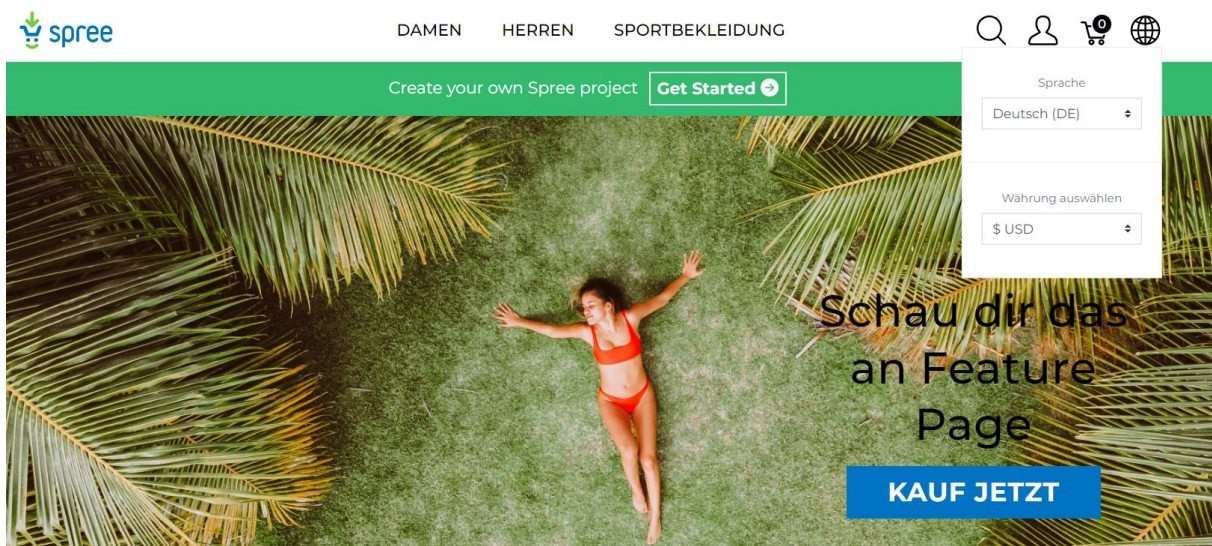

1. Navigate to <https://demo.spreecommerce.org/>.
2. Locate the language switcher, typically represented by a flag or language abbreviation.
3. Verify that the current language is set to the default language (e.g., English).
4. Click on the language switcher to open the language options.
5. Select "Deutsch" or "DE" from the language options.
6. Verify that the content of the website updates to display in German.
7. Navigate to different pages of the website and verify that the content is displayed in German.

Expected Results:

- The language switcher should present "Deutsch" or "DE" as an available option.
- After selecting "Deutsch" or "DE," the content on the page should change to German.
- Elements such as navigation, buttons, and labels should be in German.
- The URL or any language indicators should reflect the change to Deutsch.
- The change to Deutsch should be consistent across different pages of the website.

Environment:

Description

Description:

This test case verifies that the currency display functionality of the website successfully changes the currency to Canadian Dollars (CAD).

Preconditions:

- The website is accessible and fully functional.
- The default currency of the website is set (e.g., USD).

Test Steps:

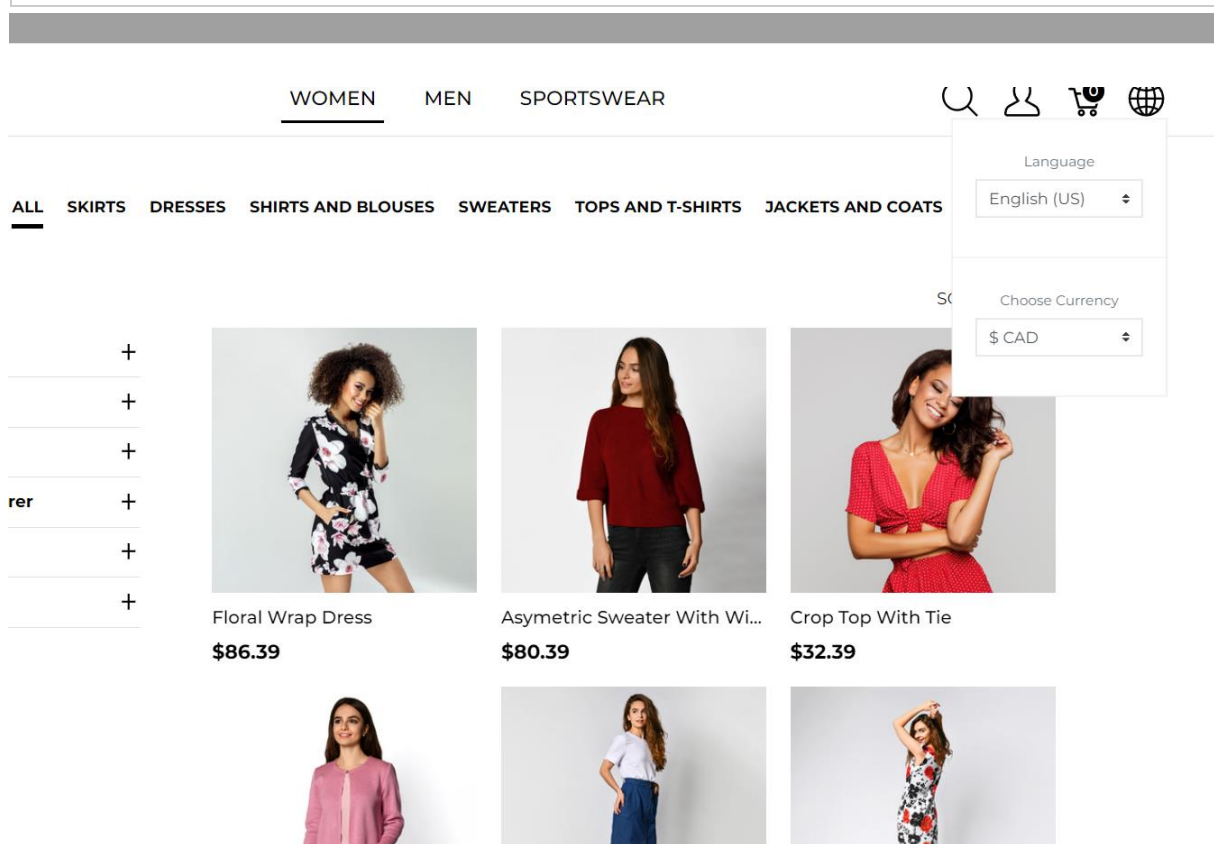

1. Navigate to <https://demo.spreecommerce.org/>.
2. Locate the currency switcher or settings where currency options are available.
3. Check for the current currency; ensure it's set to the default currency (e.g., USD).
4. Click on the currency switcher to open the currency options.
5. Select "CAD" or "Canadian Dollars" from the currency options.
6. Wait for the page to refresh.
7. Verify that product prices, totals, and any displayed currency indicators update to reflect CAD.

Expected Results:

- The currency switcher should present "CAD" or "Canadian Dollars" as an available option.
- After selecting "CAD" or "Canadian Dollars," product prices and totals should change to CAD.
- Elements such as shopping cart summaries and order totals should display amounts in CAD.
- Verify that the URL or any currency indicators reflect the change to CAD.
- Confirm that the change is consistent across different pages and products.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit)

- The website is accessible and fully functional.
- The default currency of the website is set (e.g., USD).

Test Steps:

1. Navigate to <https://demo.spreecommerce.org/>.
2. Locate the currency switcher or settings where currency options are available.
3. Check for the current currency; ensure it's set to the default currency (e.g., USD).
4. Click on the currency switcher to open the currency options.
5. Select "EUR" or "Euros" from the currency options.
6. Wait for the page to refresh.
7. Verify that product prices, totals, and any displayed currency indicators update to reflect EUR.

Expected Results:

- The currency switcher should present "EUR" or "Euros" as an available option.

- After selecting "EUR" or "Euros," product prices and totals should change to EUR.
- Elements such as shopping cart summaries and order totals should display amounts in EUR.
- Verify that the URL or any currency indicators reflect the change to EUR.
- Confirm that the change is consistent across different pages and products.

Environment:

- Browser: Google Chrome, Version 117.0.5938.132 (Official Build) (64-bit)
- Operating System: Windows 10 Home, Version 22H2 (OS Build 19045.3448)
